

The Storm Swim Club is excited to be allowed to participate in a fantastic fundraising opportunity. The Achieving Dreams non-profit is allowing our organization to sell concessions at the Target Field for the Twins Games. Please read the other two articles that are listed on this News Brief as they detail the program. Last year, the average amount earned at the stand was \$65.00 per game per person. Achieving Dreams expects the Target Field revenue to be higher, based on the increased attendance. This opportunity is open to anyone who is interested in helping Storm continue to grow into a strong program; and volunteers need not be a Storm member to help out.

Storm is focusing the funds generated from the Achieving Dreams concessions on two programs:

- Scholarships: 30%
- Pool Initiatives: 70%

We have many patrons in the south metro who may require assistance to be a member of Storm. If you volunteer, you can utilize the proceeds that you earn to pay for your own bills; or you can donate your proceeds to the general fund to be used for the programs noted above.

Money donated toward the general fund will also be set aside for Pool Initiatives, including increased renal fees, need for new equipment and other opportunities that may arise.

These donations will be held separately and used for only these commitments.

If you are interested in volunteering for Achieving Dreams concessions through Storm, please fill out the Contact Sheet included in this release and email it to Holly Daggs at domevol@yahoo.com. When you send the email, please copy storm.swim@gmail.com.

Thanks for considering volunteering your time on this great opportunity!
