

SwimAmerica is a national learn to swim program operated by the American Swimming Coaches Association through over 500 Program Directors at over 900 sites across the USA. It's the state of the art learn to swim program in the world today. Brought to you by the same people behind one of the most successful sport teams on the planet... the USA Olympic Swimming Team. What we learn teaching people to set world records, we use to teach new swimmers to enjoy swimming with the best techniques in the world... just like the development of great cars and trucks from the NASCAR and INDY car races. We learn from and teach the elite athlete AND the new child!

**STORM CHASERS!**
