ADULT FITNESS MEMBERSHIPS

Wherever you begin on your fitness journey, you start with a different history, different capabilities, and different limitations from others. The most important thing is that you start from wherever you are and move forward.

- You don't need to achieve a certain level of fitness before starting out.
- You don't need to be able to squat perfectly before squatting.
- You only need to start wherever you are, and move where you can.

THE WORKOUT

The workout consists of functionally sound movement training, strength training and conditioning with a strong focus on basic and proper technique. The workout becomes progressively more challenging once basic techniques have been mastered. The groups are kept small, no more than 12 per group, to allow maximum individual attention.

Communities

United Rentals is proud to be more than just a supplier - we are active members of the communities in which we operate. We believe it is our responsibility to utilize our resources and extensive reach to contribute to the economic and social health of the communities we serve. Working with our neighbors, we hope to build a safer future by reducing our environmental impact - today.

Community Service and Support

The United Rentals team has helped communities with park restorations, neighborhood clean-ups and related construction projects. We participate in Habitat for Humanity, bringing safe and affordable housing to those in need. Our devoted staff members also volunteer their time to important causes, including Boys & Girls Clubs, Relay for Life and Walk MS.

United Rentals is also proud to be the preferred equipment provider for [Extreme Makeover: Home Edition](#), ABC Network's popular television show. For more than four years we have supplied their team of builders with equipment, on-site services and volunteers that make it possible to build new homes for deserving families.

Large group or small, we'll feed them all.

Biodiversity

An essential component of Unimin's resource management program is our commitment to preserve and propagate the diversity of animal and plant life on the lands we manage. Since 1993, Unimin has been regularly recognized by the Wildlife Habitat Council (WHC) for our preservation and restoration efforts. The WHC is a nonprofit conservation organization that acknowledges corporate efforts to enhance wildlife habitats through a certification process known as Wildlife at Work. These certifications are reviewed and reissued every two to three years in order to ensure that habitat development efforts are ongoing.

WILDLIFE HABITAT COUNCIL

As early as 2003, 75% of our U.S. locations were certified or re-certified as Wildlife at Work sites. Unimin's facilities establish WHC objectives as part of their annual community action plan and complete WHC's recertification process every three years. The Wildlife at Work program presents an annual award called the Corporate Habitat of the Year, which recognizes one corporate land annually for outstanding environmental stewardship and employee volunteer efforts. Our Tamms/Eloo mining and mineral processing operations won this prestigious award in both 2002 and 2005.

Other WHC Awards include:

- **Community Partner of the Year - 2006**
Presented to Dr. Timothy C. Carter, Ph.D. of Ball State University in conjunction with the Tamms/Eloo plant for establishing and maintaining an exceptional bat habitat restoration and conservation program.
- **Signatures of Sustainability - 2008**
Awarded to Tamms/Eloo as one of 20 companies who exemplify the highest standards for a WHC program, making the communities around them a better place for both biodiversity and learners of all ages.
- **Prairies for Tomorrow - 2009**
Presented to the Portage, Wisconsin plant and its dedicated team who manage the wildlife habitat projects.

Unimin also supports and participates in the WHC initiative Corporate Lands for Learning (CLL). CLL is a certification program intended to foster innovative teaching methods and provide the community with an opportunity to be involved in corporate conservation efforts. CLL certification provides third party recognition for educational programs, as well as guidance on building, expanding and evaluating subsequent initiatives.

Seven Unimin sites are certified Corporate Lands for Learning, including our plant in Gleason, Tennessee. This year Gleason plant employees sponsored a 4th grade field trip to Unimin's Environmental Education Pavilion on the site of a reclaimed clay mine. The site has a wildlife viewing tower, wildlife food plots and ponds where students did hands-on experiments to learn about soil erosion in their area.
